

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/AU2004/001505

## A. CLASSIFICATION OF SUBJECT MATTER

Int. Cl. <sup>7</sup>: A61K 39/12, A61P 37/04, C12N 07/04, 07/01

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

MEDLINE/DWPI: flavivirus, kunjin, west nile, vaccine and similar terms

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Hall, R et al (September 2003) PNAS Vol 100 No 18 pages 10460-10464, 'DNA vaccine coding for the full length infectious Kunjin virus RNA protects mice against the New York strain of West Nile virus' -whole document	1-8, 11-37
Y		17-37
X	Khromykh, A et al (1994) J Virol Vol 68 No 7 pages 4580-4588, 'Completion of Kunjin Virus RNA Sequence and Recovery of an Infectious RNA Transcribed from Stably Cloned Full-Length cDNA'	1-6, 12-16
Y		17-37
X	Liu W et al (July 2003) J Virol Vol 77 No 14 pages 7804-7813, 'Molecular and Functional Analyses of Kunjin Virus Infectious cDNA Clones Demonstrate the Essential Roles for NS2A in Virus Assembly and for a Nonconservative Residue in NS3 in RNA replication' -Abstract, Tables 1, 2 Figure 1 and Discussion	1-8, 11-16
Y		7, 8, 17-37

☒ Further documents are listed in the continuation of Box C☒ See patent family annex

* Special categories of cited documents:	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"E" earlier application or patent but published on or after the international filing date	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&" document member of the same patent family
"O" document referring to an oral disclosure, use, exhibition or other means	
"P" document published prior to the international filing date but later than the priority date claimed	

Date of the actual completion of the international search  
21 December 2004Date of mailing of the international search report

# INTERNATIONAL SEARCH REPORT

Information on patent family members

International application No.

PCT/AU2004/001505

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.

Patent Document Cited in Search Report				Patent Family Member			
WO	03046189	CA	2467397	EP	1461441	AU	2002950974
Due to data integration issues this family listing may not include 10 digit Australian applications filed since May 2001.
